2nd KAZAKHSTAN INTERNATIONAL EQUIPMENT, INGREDIENTS & TECHNOLOGIES FOR PHARMACEUTICAL INDUSTRY EXHIBITION

Sections of PharmaTECH Kazakhstan cover the entire process of pharmaceutical production - from project development and equipment supply to the provision of raw materials, packaging and transportation of finished products.

EXHIBITION SECTIONS

- Integrated solutions for pharmaceutical companies
- Production and non-production equipment
- Packaging and labeling equipment
- Laboratory and analytical equipment
- Clean room technologies
- Technologies and equipment for water treatment and water preparation in pharmaceutical production
- Industrial refrigeration and climate control equipment for pharmaceutical enterprises
- Active pharmaceutical ingredients
- Pharmaceutical substances
- Auxiliary substances
- Contract manufacturing
- Registration of pharmaceutical substances
- Preclinical and clinical studies
- Transportation, warehousing and customs services
- Collection, transportation and disposal of waste

Participation in exhibitions is 3 days of effective work, solving key business tasks, new contacts, market overview and effective communication with potential customers and partners.

Especially Astana offers great opportunities to start cooperation with the medical and pharmaceutical community of Kazakhstan. Representatives of authorized state bodies and main market regulators are in the capital. Every year, thousands of industry professionals get acquainted with new technologies and developments and actively exchange experience.
